### **Research & Development**

I am involved in research & development for major Human creation technologies acted as a central research person for four major publications of personality school.

The areas of research were

1. Process child
2. Tools for total personal intelligence
3. Psychodynamics of intelligence
4. Evolution of Competency Model
5. Special creativity

### **Social & Charitable Work**

Set up a foundation for Global Child HR at Pune. The trust runs programs like Young Scientist Club & Leadership for Girls after picking up prospective children from the under privileged class. The trust is in the process of building an ultra-tech Gurukul at Pune on a 2 lac sq.ft of prime property. Her involvement is in the area of product development related to core child psychology, parent psychology & teacher psychology. The set up would offer fully-residential facilities for Indian & foreign students offering a total drill in a Gurukul pattern.
